

The ProtoCall+ care delivery model follows a stepped care approach, facilitating the right level of care for a student at the right time. We brought together exceptional platforms to help manage the demand and range of acuity you see on campus. ProtoCall+ offers a range of integrated tools all linked back to our 24/7 call center.

An Integrated Stepped-Care Approach

Togetherall

Peer-to Peer Support

Online moderated peer-to-peer mental health community where students can anonymously seek and provide support 24/7.

[LEARN MORE](#)

WellTrack

Self-guided Wellness Tools

Students can utilize innovative and interactive CBT and self-help tools with a wide-range of stress, anxiety, depression, and resiliency courses.
